

I am writing to request that K-Love on 91.1 will continue to be broadcast on the FM translator and not switched to LPFM. I listen to K-Love everyday in my car and it is safe to listen to for myself and my kids. K-Love is important to my community and my family with it's wholesome values and it's positive and encouraging impact on all communities in America. Please keep this great radio station K-Love on the FM translator.
